

# NOTICE TO MARINERS

## 040 (T) of 2020

---

Issued by Brisbane Maritime Region on 11 February 2020

**Area:** Brisbane pilotage area  
**Locality:** Mooloolah River inner harbour  
**Activity:** Dredging Operations

Mariners are advised that the cutter suction dredge 'Navua' and support work boats, will be undertaking dredging operations in the Mooloolah River inner harbour for approximately 6 weeks from 07 February 2020 until late March 2020, subject to change. Works throughout the period can be expected to occur in daylight hours.

A semi-submerged pipeline will extend from the dredge and along the western side of the channel to the beginning of the western breakwater and will be marked by yellow buoys with lights. Mariners are to be aware that submerged cables will extend across the channel whilst the dredge is in operation. The dredge will exhibit day shapes and lights as required by the Collision Regulations, and the dredge master will maintain a listening watch on VHF channel 16.

At night time the dredge will be secured to the pile moorings within the harbour. The floating pipeline will be secured and marked with flashing lights.

Mariners should navigate with caution in the area and also remain mindful of their wash and the operational speed limit of 6 knots in the vicinity of anchored vessels.

Any enquiries about the dredging operations can be directed to the dredge operations manager on 0488 777 426.

**Refer to notice:** none  
**Cancel notice:** 519(T) of 2019
