

NOTICE TO MARINERS

047 (T) of 2020

Issued by Brisbane Maritime Region on 17 February 2020

Area: Brisbane pilotage area

Locality: Mooloolah River Bar

Activity: Shoaling

Mariners are advised that reports have been received since the last survey on 3 December 2019 that indicate the entrance channel of the Mooloolah River and its coastal bar may have depths less than 2.5m design depth at LAT. This reported shoaling includes the centreline of the channel. A survey will be scheduled at the earliest opportunity.

Mariners must remain mindful that coastal bars are dynamic in nature with conditions constantly changing. Mariners must plan their crossing of the Mooloolah Bar, having careful consideration to prevailing conditions, the state of the tide, and the draught of their vessels. The coastal bar must be navigated with extreme caution.
